

I've been notified about the LPFM stations possibly taking priority over current FM translator service. The main station I listen to is K-LOVE and I'm concerned that this expansion could displace my local K-LOVE station. K-LOVE serves a need in our community b/c there isn't and hasn't been a station with the positive music and messages heard on K-LOVE. Very family friendly! Please take these concerns into consideration, so that the station I value in my area is able to continue broadcasting. Thank you very much!
